DETAILED ACTION

1. This Office Action is in response to the Amendment filed May 2, 2002 which has been entered into the record of file.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371© of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 13-15 and 17-28 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Prouty, IV et al (U.S. Patent No. 6,097,393).

Application/Control Number: 09/394,824

Art Unit: 2671

As per claims 13-15 and 17-28, Prouty, IV et al disclose a method and system for three

dimensional graphical resource management including displaying a plurality of two dimensional

drawing views of a three dimensional model on a computer display screen which clearly anticipates

the features as now claimed (see col.4, line 15 through col.6, line 56).
